Re VAR 21724  
VAR 21632

5/12/07

I have lived at the Above Address for over 10 years. I have objected to every Variance that has been sent to me all but one have passed.

We have Regulations that have been set up with good reason but in the final analysis they are not followed. Why bother in the 1<sup>st</sup> Place if we are going to always grant Variances?

I object to the 15' Wall where 8' is allowed & set back of 10' where 20' is required. These actions ~~the~~ further make the neighborhood look like no planning has taken place & further reduce Property Values.

Thank You  
James Frink
